PROFILE

A lifelong learner, exceptionally curious, outdoor adventurer and excited to problem solve. Working at MEC I became familiar with the power of details, from repairing bikes or camping stoves, to listening to member needs. I look forward to continuing my journey into code and building beautiful, engaging websites for all to enjoy.

SKILLS

- HTML/CSS/JavaScript
- RESTful APIs and Firebase
- Accessibility, responsive design
- Version Control, Git & GitHub
- Paired programming
- vsCode, snippets, & Emmet
- Complex problem solving
- Excellent customer service

xkcd Comic Viewer <https://awsclemens.github.io/aaronClemensProjectFive/>

View and search all xkcd comics. See last 10 recently viewed comics.

- HTML5, CSS3, React, RESTful API, Firebase, responsive, accessible

EDUCATION

Aug '20 - Oct '20	Web Development Immersive Cert., Juno College of Tech.	Toronto, ON
	A 9-week fulltime immersive bootcamp where I spent 315+ in-class hours receiving up-to-date skills training in modern web development languages, editors, and practices.	
Jun '20 - Jun '20	JavaScript Accelerated Course, Juno College of Tech.	Toronto, ON
May '20 - Jun '20	Web Development Accelerated Course, Juno College of Tech.	Toronto, ON

EMPLOYMENT

Mar '10 - Jul '20	Sales Specialist Mountain Equipment Co-op	Calgary, AB
	In a fast-paced retail marketplace, I was tasked with engaging, educating and helping every member find their outdoor gear. With a passion for quick thinking, problem solving and deep experience I became the go-to staff for the membership.	
Jan '12 - Jul '20	Events Team Race Setter Mountain Equipment Co-op	Calgary, AB
	Looking to expand my role, MEC added me to their events team. Needing my high attention to detail they chose me to design and physically set out the signage for all races, trail runs, triathlons and cycling fondos. My discipline led MEC Calgary to hold the most events, with largest turnouts and most positive reviews from across Canada.	
May '13 - Jul '20	Presentation Team Member Mountain Equipment Co-op	Calgary, AB
	My vast knowledge and instructional approach led MEC to add me to their presentations team. I developed and delivered hundreds of hours of educational talks to the public, local businesses, and school groups, bringing in many more members to the store.
